

# Which battery platform in Niue has the most sites

*LiFePO<sub>4</sub> Battery, safety*

*Wide temperature: -20~55°C*

*Modular design, easy to expand*

*Wall-Mounted&Floor-Mounted*

*Intelligent BMS*

*Cycle Life: ≥ 6000*

*Warranty: 10 years*

## Overview

---

NIO's swap stations are strategically located to provide convenience for users, and the company has developed an integrated system that manages battery health and usage efficiently. Currently, the company operates 20,000+ swapping cabinets and 400,000+ batteries, serving 300,000 users. The project will contribute to the Government of Niue's target of 80% renewable energy. The Niue Renewable Energy project currently being constructed near the airport comprises a 2.79MWp photovoltaic solar array, 8. The PEC Fund supported the supply and installation of a 200kWp grid connected solar PV system. As island nations face rising fuel costs and climate threats, this 2.8 MWh battery storage (operational since Q3 2023) reduces diesel consumption by 89% annually. Daily load ranges from 400kW to 600kW.
