

Which communication base stations in Jamaica have more wind power

Overview

Wigton Wind Farm has 62MW of installed wind capacity, and BMR Energy has 36 MW of installed wind capacity. Both these wind farms are located in St Elizabeth in the southern side of the island. This is a list of electricity-generating power stations in Jamaica, sorted by type and name. In Jamaica, the Jamaica Public Service Company (JPS) has a monopoly on the "transmission, distribution and supply of electricity". Jamaica has set an ambitious target to generate 30% of its energy from local renewable sources, such as hydro, wind and solar power by 2030. BMR Energy developed, owns and operates the largest private-sector renewable. JPS produces electricity using steam (oil-fired), combustion gas turbines, combined cycle, diesel, hydroelectric, and wind which allow for a generation capacity in excess of 629 Megawatts. Global Energy Observatory/Google/KTH Royal Institute of Technology in Stockholm/Enipedia/World Resources Institute/database.
