

Which company in Spain has the most solar sites

Overview

The Spanish energy giant continues to dominate the renewable sector with an ambitious €3 billion investment program specifically dedicated to solar development through 2025. Iberdrola currently operates 4.8GW in advanced development. Spain has solidified its position as Europe's solar energy powerhouse, leveraging its exceptional solar resources (averaging 2,200-2,600 kWh/m² annually) and progressive government policies. The country has exceeded expectations in its renewable transition, reaching 25GW of installed solar capacity. Israeli solar company Ellomay has connected to the grid the 300 MW Talasol PV project in Spain after 17 months of construction work. The complex is made up of three photovoltaic (PV) parks -- Santiz I, Guleve-Palacios del Arzobispo and Lerapa-Vadelosa I -- all in Salamanca province. Read more about the largest PV plants in Spain. With an impressive installed solar capacity, the country is actively moving towards a more sustainable future.
