

Which photovoltaic panel has the best performance

Overview

For the second year running, Aiko Solar holds the top spot in residential solar panel efficiency rankings with the launch of its third-generation NEOSTAR 3P54 series in mid-2025. Due to the many advances in photovoltaic technology over the last decade, the average panel conversion efficiency has increased from 15% to over 24%. This shift provides better performance, lower degradation rates, and superior temperature coefficients. 75/watt, while best-value options like REC's 22.6% Alpha Pure deliver better. Here are the most efficient solar panels on the market, with all the analysis you need to pick the best model for your home.
