

# Which super capacitor is the best in Oslo

**LPW48V100H**  
**48.0V or 51.2V**

## Overview

---

Supercapacitors lose less than 10% capacity after 10 years – perfect for Oslo's harsh winters and maritime climate. When evaluating manufacturers, consider: Scalability: Can they support projects from 1kW to 10MW?

Local support: On-site maintenance teams in Oslo?

. Supercapacitors bridge the gap between traditional batteries and capacitors. 2 billion by 2028, with energy storage systems driving 34% of demand" - MarketsandMarkets Report 2023 1. According to Statistics MRC, the Global Supercapacitor Market is accounted for \$5. They can be recharged very quickly and are used primarily for energy storage.

## Which super capacitor is the best in Oslo
