

Who is responsible for repairing the photovoltaic panel if it explodes

Overview

Responsibility for solar panel repair costs typically falls on the owner of the solar panel system. If you own the system, you will be responsible for the maintenance and upkeep, including any necessary repairs. However, check the product warranty first to see whether it's still. If the communications error is caused by a setting you changed, expect to be charged for a repair service call unless you fix it yourself. If something is wrong with your inverter software that wasn't directly caused by you or the installer, the manufacturer should pay for the equipment needed to. If you suspect solar panel damage, the first thing to do is contact the installation company or another qualified solar energy system repair outfit. Inspect your solar panels for any visible damage.
