

Why do we need to install photovoltaic panels

Overview

Solar panels draw their energy from the renewable resource that is our sun. Not only does installing a solar energy system reduce your reliance on fossil fuels (which improves your air quality and protects the environment), but it can also save you \$25,000 to over \$110,000 over its lifetime. Most. Below are ten reasons to install solar panels. Economize on Electricity Bills On average, Americans spend around 110\$ on electricity each month and the energy consumption is rising. Some or all of the mortgage lenders featured on our site are advertising partners of NerdWallet, but this does not influence our. Geographic Viability Extends Beyond Sun-Rich States: Even moderate solar resource areas like the Mid-Atlantic and Midwest can be financially viable due to high electricity rates and strong state incentive programs, challenging the misconception that solar only works in southwestern states. Battery. Solar panels are built to work in all climates, but in some cases, rooftops may not be suitable for solar systems due to age or tree cover.
