

# Wide-temperature type energy storage cabinet for schools

## Overview

---

AZE's waterproof type outdoor battery cabinet systems are the perfect solution for housing your Low Voltage Energy Storage systems, they are widely used in a variety of applications such as Back-up systems for office computers, data centres, Banks, hospitals, Schools & Infrastructure. AZE's waterproof type outdoor battery cabinet systems are the perfect solution for housing your Low Voltage Energy Storage systems, they are widely used in a variety of applications such as Back-up systems for office computers, data centres, Banks, hospitals, Schools & Infrastructure. Applying thermal energy storage helps maximize efficiency and lower operational costs in the K-12 school market. Thermal energy storage solutions lead to significant operational savings and energy rebate incentives for facility owners. Engineered with advanced 314Ah battery cells and a state-of-the-art liquid cooling system, this AC-coupled system is ideal for industrial and commercial power. Discover AZE's advanced All-in-One Energy Storage Cabinet and BESS Cabinets - modular, scalable, and safe energy storage solutions. Featuring lithium-ion batteries, integrated thermal management, and smart BMS technology, these cabinets are perfect for grid-tied, off-grid, and microgrid. Multi-dimensional use, stronger compatibility, meeting multi-dimensional production and life applications High integration, modular design, and single/multi-cabinet expansion Zero capacity loss, 10 times faster multi-cabinet response, and innovative group control technology Meet various industrial. The 261kWh liquid-cooled BESS is an advanced outdoor energy storage cabinet designed for commercial and industrial applications.
