

# Wipe solar glass

## Overview

---

In this guide, we'll cover the best ways to clean your solar panels safely and when you should hire a professional. Avoid rough scrubbing! Use a soft sponge, microfiber cloth, or soft-bristled brush to prevent scratches. Mix warm water with mild dish soap and gently wipe away dirt. Its powerful cleaning action helps maintain. As a PV solar glass supplier, I've seen firsthand how important it is to keep your solar glass clean. However, dust, pollen, bird droppings, and other debris can accumulate on their surface, creating a shadowy barrier that hinders their ability to absorb energy. Handling broken glass presents inherent risks, and utilizing proper protective gear is paramount.
