

# Yerevan undertakes energy storage project

**51.2V 300AH**

## Overview

---

Summary: The new 100MWh energy storage power station in Yerevan is set to transform Armenia's renewable energy landscape. This article explores its technical specs, market impact, and why it matters for grid stability and solar/wind integration. Renco, flanked by Siemens, finance 60% of ARMPOWER, for a total of 56. With. Imagine Yerevan's power grid as a seesaw – solar panels napping at night while factories guzzle electricity by day. While specific Yerevan-based projects aren't publicly documented. Jinyuan's 2024 installation achieved: Not bad for a system storing enough energy to light 15,000 medieval manuscripts! Armenia's new feed-in tariff scheme (updated March 2025) changes the game: Jinyuan's CFO Anahit Grigoryan puts it bluntly: "We're not just storing electrons – we're banking. Yerevan, the capital of Armenia, is rapidly emerging as a hub for wind energy, solar power, and energy storage solutions.
