

Zagreb electric vehicle incentives

Overview

The Croatian State Fund for Environmental Protection and Energy Efficiency has announced that it will provide a total of €21.2 million in subsidies to companies for the purchase of zero-emission vehicles. Financial incentives range from €2,500 to €9,000 per vehicle or up to 40% of the vehicle. Croatia has announced a new €21. Unlike. State incentives for electric vehicles are returning in 2025 with larger amounts and clear rules. Electrification of business fleets is becoming a smart decision. Under the Alternative Fuel Infrastructure Regulation (AFIR) Member States are required to ensure a minimum total power output is provided through publicly accessible recharging stations and that fast-charging.
